maritettakatsarou@gmail.com LinkedIn: [Maritetta Katsarou](#)

Multidisciplinary Design Engineer

Senior UX/UI Designer, Product & Systems Engineer, and PhD Candidate specializing in the intersection of AI-driven technologies, HCI, and E-Governance. Expertise in SaaS platform design (UX strategy and architecture, information architecture, and scalable UI systems), custom CMS solutions, and Digital Twin interfaces for Smart City applications, including IoT data visualization. Experienced in applying modern design systems to support operational efficiency, real-time insight, and scalable digital services. Adept at managing high-stakes stakeholder relationships — including municipal leaders and high-net-worth clients — to deliver accessible, user-centered, and resilient digital ecosystems. Actively engaged in the UX community and a member of the Interaction Design Foundation (IxDF).

Work Experience

UX/UI Designer at Evolution Projects

Jul 2024 - Present

- Standardized UX research & design methodologies in the project workflow
- Spearheaded the architecture and implementation of a scalable Design System
- Lead cross-functional teams of designers and developers, introducing design system best practices
- Facilitated high-stakes stakeholder management, discussed and presented complex e-governance and design solutions to municipal leaders (Mayors, General Secretaries) and high-end clients
- Orchestrated the re-design of municipal websites digital presences
- Gained experience in product delivery plans and pipelines

Sales & design associate at Kois optics

May 2023 - Jul 2023

- Design for sunglasses cases and bags that incorporated the brand's elements.
- Inventory management to optimize product availability and minimize instances of stock-outs (on website).
- Conducted market research to identify trends and opportunities for innovation and product differentiation
- Sales & Contact with suppliers

Core Education

PhD pursuit (Industrial PhD)

Jul 2026 - Present

National & Kapodistrian University of Athens x Evolution Projects

Research Title:

Re-Designing Municipal UX and Digital Presence. Developing an AI-Driven, HCI-Aligned, E-Governance Framework that Enhances Citizen Participation and Incorporates a Decision-Support System for Municipal Administrators - in the era of Digital Transformation and beyond

Take The Lead Course - Leadership, Entrepreneurship, Time management

Nov 2023

Cornell University | Remotely

UX Design Specialization

Sep 2023 - Jan 2024

Google | Remotely

MSc in Product & Systems Design Engineer

Sep 2019 - Jul 2025

Department of Product & Systems Design Engineering | University of the Aegean, Syros

Academic Achievements

- Excellence Scholarship for the year 2023
- Second prize in a sunglasses design competition (2023)

KFC app - redesign proposal

Sep 2023 - Jan 2024

An app prototype created during the Google UX Design Professional Certificate. My goal was to create an application for the Greek market that is more functional than the existing one, to offer a better user experience even to people who are technologically illiterate or visually impaired so that it is accessible to everyone and so to increase engagement. The choice was purely out of personal preference.

Anima Syros - Cultural Event App

Apr 2023 - Jan 2024

My first app prototype created during the University course "Design & Programming of Applications for Mobile Devices". We were asked to create a proposal for Anima Syros app festival and its events.
